## PROFESSIONAL EXPERIENCE

**1-800Flowers.com, Inc.**, Jericho, New York

March 2021 – Present

*Application Developer*

- Created an internal UI tool for agents that increased customer service productivity by allowing hands-on access to customer profiles
- Integrated third party RESTful APIs to monitor yearly subscriptions in order to provide incentives to grow and maintain consumer base
- Built a dynamic page with React and Contentstack that tracks user statuses to display relevant messaging and imagery
- Mentored junior developers by providing code reviews and more efficient work practices

**Westlake Financial Services**, Los Angeles, CA

Sept 2019 – March 2021

*Software Engineer II*

- Streamlined the car repossession process using the Java Spring Batch Framework to automate each process involved in the workflow of repossessing customer vehicles
- Developed a real time web-based service which provided other departments with live data to ensure efficient and optimal processing
- Built a program which cross references third-party vendor files and generates reports that are distributed via email for management

---

## APPLICATIONS

**Fetch App**, Mobile Application for Pet Owners

*React Native | MongoDB | Node.js | Express | AWS S3*

- Implemented image upload feature by creating access to the systems UI to allow users to upload images directly from their camera roll for their profile
- Integrated AWS SDK to allow photo uploads to be stored in AWS S3

**Adidas-III**, Adidas Web Application Clone

*React | CSS Modules | MongoDB | Node.js | Express*

- Built the main product description, including modals with image sliding carousels, using CSS Modules and Flexbox to accurately represent the styling of the actual website
- Implemented a microservice oriented architecture in order to ensure that each individual component can work independently from one another

---

## TECHNICAL SKILLS

**Front-end:** JavaScript, React, Redux, HTML5/CSS3, SCSS/SASS, Next.js

**Back-end:** Java, Node.js, Express.js, SQL, MongoDB, GraphQL

**Developer Tools:** Git, npm

---

## EDUCATION

**Hack Reactor**, Los Angeles, CA

2019

Advanced Software Engineering Immersive

**California State University Long Beach**, Long Beach, CA

Aug 2014 - May 2016

Bachelor's in Business Administration - Management
